

Trust your inner roof

DISCUS establishes a new LAER benchmark the EPA's lowest achievable emissions rate

The DISCUS welded aluminum internal floating roof

Trust your **roof**

- Welded seams—zero loss
- Best bolted seam ever tested
- No enclosed spaces
- Designed to steel specs
- Patent-pending technology

Trust your **seal**

- Lowest emissions factor available
- Lower profile—more storage
- Armored liquid mounted
- Needs no secondary seal
- Patented technology
